***REASONS FOR ALLOWANCE***

1. Claims 11-17 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest a lacrimal plug with an elongate body, elliptical collar, and anchoring branches that extend elastically away from the elongate member in the direction of the major axis of the elliptical collar. US 6,629,533 to Webb et al teaches a lacrimal plug with an elongate body, collar, and anchoring members, but does not teach that the collar comprises an elliptical shape nor that the anchoring members comprise discrete legs that extend away from the body at the claimed angles. Applicant discloses that the elliptical shape is critical to allow the lacrimal plug to closely mimic the anatomy of the patient's lacrimal duct. (Webb's FIG 6b appears to illustrate an elliptical collar, but the figure is a cross-section along the line 6b in Fig 6a, which takes an angular view of the circular elongate body.) US 2003/0018291 to Hill teaches an ear tube with discrete anchoring legs that extend away from the elongate body, but does not disclose or suggest an elliptical collar or the position of the anchoring legs with regard to the shape of the collar.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
